Experience

A.K. Interiors, Belhar, Cape Town (21 November 2016 – 30 April 2017)

Trainee

Whenever we got the material (wood) needed I had to pack and sort them by size and colour. I assembled cupboards for kitchens, living rooms and bedrooms. Once all cupboards were complete I used thinners and brooms to clean any pencil marks and saw dust left in them.

Enlight Technologies, Bellville, Cape Town (12 May 2017 – 14 December 2018)

Internship

I helped assist sub-contractors for Telkom installing and repair faults on ADSL and Fibre lines. I learned hands-on how to use the tools and equipment needed to install ADSL and Fibre lines in homes and the areas where the problems occur in order to repair faults either from the customer's home, a DP, an SDC or an MDF.

HiH Technologies, Pinelands, Cape Town (20 January 2020 – 5 March 2020)

Independent Dealer

I performed in-house full factory demonstrations to provide market research and to make sales on a product which was distributed. I received training on said product before going out on the field to clients' homes to demonstrate the product.
